

Society of St. Vincent dePaul Emergency Response

The 42-foot long trailer houses a full stainless steel kitchen complete with grill, soup preparation stations, sinks, washers, food service windows, and storage for provisions.

Serving 25 gallons of soup per hour and grilled hot sandwiches, this kitchen has the capacity to feed 10,000 people per day. Pulled by an over-the-road tractor, the kitchen trailer can be delivered anywhere in the continental United States.

R&R Creative worked closely with the Society of St. Vincent de Paul to develop an image for the truck that would bring hope to victims of disasters like Hurricane Katrina.
